M.C. Dean, Inc. Acquires Florida Firm

M.C. Dean, Inc. continues to expand operations in Southeast with acquisition of Florida-based Aneco

Dulles, VA, April 12, 2005 – M.C. Dean, Inc., a leader in the design, installation and integration of complex power, electronics, homeland security and telecommunications systems, announced today the acquisition of Aneco, an electrical construction, communication, and data services company based in Clearwater, Florida.

Under the acquisition agreement, Aneco will operate as a division of M.C. Dean, Inc., with Bob Taylor of Aneco serving as the division's General Manager, according to Bill Dean, President and CEO of M.C. Dean, Inc.

"Aneco has more than half a century of experience providing services to government, institutional, and large commercial clients. This long history is due to their strong track record for completing projects on time and within budget, which makes the firm an excellent addition to M.C. Dean, Inc. Aneco fits into our culture well, because we share a similar client base, albeit in differing geographic areas, and identical focus on surpassing customer expectations," said Dean.

"Joining M.C. Dean, Inc. allows Aneco to access a broader base of resources and technology while maintaining our focus on electrical services. M.C. Dean, Inc. is led by engineers who understand our projects and the needs of our clients and will continue to support us in meeting our clients' needs," said Taylor.

About ANECO, Inc.

Aneco is headquartered in Clearwater, Florida and provides diversified electrical construction, communications, and data services to government, institutional, and commercial clients including the Veteran's Administration, the General Services Administration, the Federal Bureau of Prisons, U.S. Coast Guard, Tampa International Airport, and Buccaneers-Raymond James Stadium. Areas of specialty include aviation, water treatment plants, health care facilities, data centers, sports stadiums and arenas, and judicial/correctional facilities. In 2003 and 2004, the firm was named to the Engineering News Record's list of the Top 600 Specialty Contractors, receiving a ranking of 67 on the 2004 list.
